

COMMUNITY ENGAGEMENT INSTITUTE (CEI) PERSPECTIVES

Healthcare Equity for People Who are Disabled

Join the Center for Clinical and Translational Science (CCTS) for a meaningful conversation on healthcare equity for people with disabilities. Community partners will discuss disability rights, advocacy, patient care, and outcomes.

By exchanging knowledge and resources, we aim to raise awareness and determine actionable next steps to improve healthcare for disabled individuals.

The University of Alabama at Birmingham is committed to providing access and accommodations in its services, programs, and activities. To make a request for accommodations due to disability please, contact Clifford Kennon, ckennon@uab.edu.

 Wednesday, June 26

 10.00 AM - 11.30 AM
