UNIVERSITY OF ALABAMA AT BIRMINGHAM

Commencement

SATURDAY, AUGUST 10, 2024

BARTOW ARENA

BIRMINGHAM, ALABAMA

TO OUR GUESTS

Welcome to the Summer 2024 Commencement of The University of Alabama at Birmingham. The pageantry of today's ceremony is the culmination and recognition of years of study, preparation, and achievement of our graduates. We hope you find the ceremony both meaningful and memorable, as it reflects the combined efforts of the faculty, the staff, and, of course, our students and their families.

Commencement begins with the traditional academic procession. The faculty, headed by a distinguished group of emeriti professors, follow in order of academic rank and seniority and are led by the UAB Academic Mace (see page 11). For the Commencement ceremonies, the mace is carried by Tino Unlap, Ph.D., Professor in the Biotechnology Program in the School of Health Professions. Next are Ray L. Watts, M.D., President of The University of Alabama at Birmingham, members of The Board of Trustees of The University of Alabama System, and representatives from The University of Alabama System's Office. Other persons in the platform party include distinguished guests, as well as UAB senior administration and deans.

The audience is asked to stand as the procession enters the arena and to remain standing through the singing of the National Anthem.

President Watts closes the ceremony after all degrees have been awarded and the UAB Alma Mater has been sung. The audience is asked to stand and to remain standing for the recessional of the platform party. Family and friends are asked to meet the new alumni outside of Bartow Arena; they will not be allowed on the arena floor.

THE UNIVERSITY OF ALABAMA AT BIRMINGHAM

Over the five-plus decades since it was founded in 1969, the University of Alabama at Birmingham has earned international renown for its innovative academic programs, groundbreaking research and scholarship, and leading-edge patient care. In the 2022-2023 U.S. News & World Report “Best Global Universities” rankings, which focus on academic research and overall reputation, UAB was in the top 8 percent globally.

In fall 2023, UAB surpassed 21,000 students enrolled for the sixth straight year. Of the freshman class, 34 percent were first-generation students. The average ACT score for first-time freshmen was 26.2 and the average GPA was 3.77. A record number of international students (1,728) were enrolled in fall 2023.

The fall 2023 semester also saw UAB implement its new Blazer Core Curriculum. This 21st century undergraduate curriculum is focused on experiential learning in the real world that effectively equips students to think critically and collaborate on solutions to local and global challenges.

In the 2024 U.S. News & World Report “Best Graduate Schools” rankings, UAB had a record 22 programs in the top 25, including a Master’s in Health Administration program that ranks first in the nation. Students and their faculty mentors are engaged in a robust research enterprise that is more competitive than ever. In fiscal year 2023, UAB’s research awards reached a record \$774.5 million, extending the most successful era of research funding growth in the university’s history. Over the past nine years, research funding has grown by 73 percent. Among public universities, UAB ranks 17th in federal research funding and 11th in funding from the National Institutes of Health (NIH), and in the top 1 percent of all NIH-funded organizations — public, private, and international. In order to build on that momentum, UAB launched its Strategic Research Initiative: Growth with Purpose in 2023, with the bold goal of reaching \$1 billion in research expenditures.

The schools of Health Professions and Nursing (both second), and the School of Optometry (sixth), are all in the top 10 nationally in NIH funding, and all six UAB health-related schools are in the top 15 among public universities in NIH funding. This research is being translated into commercialization success through the Harbert Institute for Innovation and Entrepreneurship. In fiscal year 2023, the institute generated more than \$6 million in revenues and launched three startups, with 12 others approved and poised for launch.

UAB’s research is also being translated into world-class patient care. UAB Hospital — the nation’s eighth largest hospital — was again ranked by U.S. News & World Report as the best hospital in Alabama in its 2024-2025 list, with seven adult specialties ranked among the nation’s best. To meet a 20 percent volume increase over the past five years, the emergency department has launched a \$73 million expansion that includes \$50 million in state support.

With more than 28,000 employees and a campus spanning more than 105 city blocks, UAB is the largest single-site employer in Alabama, with a statewide economic impact of \$12.1 billion annually in fiscal year 2022, up from \$7.15 billion in fiscal year 2016. In 2021, Forbes ranked UAB number one on its list of Best Large Employers (above the likes of Mayo Clinic, NASA, and Google).

UAB ALMA MATER

The UAB Alma Mater was composed by Birmingham native David McNeeley in 2003. A competition was held, and a committee comprising UAB faculty, administrators, students, and alumni selected it from numerous submissions. The Alma Mater expresses the unifying sentiments of pride, respect, and cherished memories for the university.

THE ACADEMIC COSTUME

The custom of wearing academic caps, gowns, and hoods can be traced to the twelfth century. At that time both men and women wore long, full, flowing robes. This mode of dress gradually changed so that by the end of the seventeenth century only legal and official personages wore gowns. However, certain guilds and universities established the tradition of wearing prescribed apparel. In the universities, the details of the dress distinguished different degrees of learning and the faculty. In the United States, as a result of our English heritage, caps and gowns have been used from colonial times, especially at our older universities such as Columbia (King's College), New York University, University of Pennsylvania, Bryn Mawr, Yale, and others. Around 1885 there was a widespread student movement to wear caps and gowns at commencement. The faculties approved this dignified graduation dress and soon adopted the custom of wearing gowns at academic ceremonies.

In 1895, the Intercollegiate Commission presented American institutions of higher learning the Intercollegiate Code. This code regulated the design of gowns and hoods as well as the colors and materials to be used. The code was subsequently adopted by more than 95 percent of U.S. colleges and universities. It has given America an impressive but simple method of signifying scholastic honors.

The code provides for three types of gowns. The gown for the bachelor's degree is made of green material and has long pointed sleeves. The gown for the master's degree is made with an oblong sleeve open at the wrist. The rear part of this oblong shape is square cut and the front part has an arc cut away. The gown for the doctor's degree has bell-shaped sleeves. It is faced with velvet and has three bars of velvet on each sleeve. The color of the velvet trim may be black or the same color as the velvet which edges the gown.

The green oxford or mortarboard-style cap is worn for all degrees, but only the doctor's cap may be made of velvet and have a gold tassel.

The hood is the most important and distinctive feature of the American code. An understanding of the system makes it possible to distinguish readily bachelor's, master's, and doctor's hoods and to recognize the university which gave the degree. The doctor's hood is four feet in length and made with a wide panel. The master's and bachelor's hoods are three and one-half and three feet in length, respectively. They are made of black cloth and are lined with silk in the official academic colors of the institution which conferred the degree. The hoods worn by graduates of The University of Alabama at Birmingham are lined in green silk with a gold chevron. The trim of all hoods is velvet, two inches, three inches, and five inches wide for bachelor's, master's, and doctor's degrees, respectively. The color of the velvet trim indicates the discipline or faculty to which the degree pertains. Each discipline has been assigned a different color by the Intercollegiate Code. The following is a list of colors assigned to several of the disciplines within The University of Alabama at Birmingham.

Arts	<i>White</i>	Nursing	<i>Apricot</i>
Business	<i>Drab</i>	Optometry	<i>Seafoam green</i>
Dentistry	<i>Lilac</i>	Philosophy	<i>Dark Blue</i>
Education	<i>Light Blue</i>	Public Health	<i>Salmon Pink</i>
Engineering	<i>Orange</i>	Science	<i>Gold-yellow</i>
Fine Arts	<i>Brown</i>	Social Science	<i>Citron</i>
Medicine	<i>Green</i>		

A few years ago some Ivy League colleges approved the wearing of gowns which were not black but the official school colors. This trend has expanded so that currently many colleges and universities have adopted special colored gowns. The members of The Board of Trustees of The University of Alabama system wear a green gown with gold trim at The University of Alabama at Birmingham academic ceremonies. Colored gowns worn by many faculty identify the doctoral degrees of many American and foreign universities.

THE CEREMONIAL ACADEMIC MACE

The ceremonial academic mace appeared in European universities during the fourteenth century and represented the amalgamation of two much older staff-like devices of similar length and shape. These were the regal scepter and the medieval battle mace. Kings throughout history have carried scepters as insignia of the lawful authority of just rulers. The battle mace was first used by medieval princes as an effective hand weapon in combat.

In the fourteenth century, the royal scepter and the battle mace were combined to produce the ceremonial academic mace. It was carried before royalty, mayors of cities, and chief officers of the medieval universities.

In modern times, the mace is used on ceremonial occasions in the life of the university. In commencement exercises, the mace specifically indicates the authority of the university president to award degrees. The mace immediately precedes the presidential party in the ceremonial procession. For the Commencement ceremonies, the mace is carried by Joe L. March, Ph.D., Professor of Chemistry and Associate Director of the Science and Technology Honors Program.

The UAB mace is fashioned in three metals: brass, bronze, and stainless steel. The use of these metals--especially the stainless steel--is intended to signify Birmingham's traditional role as an iron and steel producing center.

At the lower end of the mace are three medallions of enamel on copper. One medallion bears the image of the lamp of knowledge. Another bears the traditional symbol of the physician, the Caduceus (Aesculapius, Greco-Roman god of medicine, was embodied at the temple of Kos as a statue holding a serpent, a symbol of long life, healing, and knowledge. A staff and a second serpent were added later to form the Caduceus). The third medallion is the UAB logo in gold on a green enamel background with a red enamel glow on the collar to symbolize the molten metal characteristic of old Birmingham and its blast furnaces.

The UAB mace was commissioned, designed, and executed in 1989 by the noted Alabama sculptor, Cordray Parker, with the help of Heidi J. Bowman on the enameled medallions. In 2021, Jamey Worrell, Ph.D., professor of accounting in the Collat School of Business, handcrafted a new stand for the mace. He sourced lumber from felled trees on UAB's campus and around Birmingham, selecting wood that represents some of the university's best qualities: oak for strength, hickory for resiliency, elm for knowledge, and cherry for passion.

The mace was made possible through the generosity of the late Samuel B. Barker, Ph.D., and his late wife, Justine. Dr. Barker, distinguished professor emeritus and dean emeritus of UAB, was the first dean of the UAB Graduate School and a leading patron of the arts in Birmingham.

THE ACADEMIC GONFALONS

The academic gonfalons feature the UAB logo, the university seal and the name of the schools in white on a background of black, in keeping with the traditional black academic gowns worn by students and faculty. Each gonfalon also features a border of the school's academic color, which is repeated across the entire back of the banner. The exception is the UAB gonfalon, which features white letters on a green background, bordered and backed in gold, denoting UAB's official colors.

THE UAB PRESIDENT'S MEDAL

The UAB President's Medal is designed to recognize individuals who have attained scholarly distinction and/or have rendered distinguished service to UAB. Recipients are selected by the President of UAB upon the advice and recommendation of senior university officials. Selection as the recipient of this medal is one of the highest honors bestowed by UAB.

The award is comprised of an antique brass medallion and plaque, suitably inscribed, mounted in a cherry stand. The UAB President's Medal is awarded at a commencement ceremony.

Dear UAB Graduate,

Graduation day is special. Today, you can say you did it! You survived the countless number of hours needed to complete a degree as you celebrate your accomplishment with friends, family, and (of course) the many Blazers around you. While commencement serves as a ceremonial ending to your pursuit of a degree, it also marks a new beginning. Today, you join a growing global group of alumni that boasts more than 160,000 individuals. You are now officially an alum.

Your connection to the university shouldn't end when your name is called and you cross that stage. There are many ways to stay engaged with the university that has provided so much to your academic and personal growth.

- Engage with us on social media (@uabalumni). See something you like? Share it with your network to let others know why UAB is so special.
- Continue to wear your green and gold with pride and “Be Seen in Green!”
- Join me virtually or in-person at an upcoming event through the UAB National Alumni Society. Check out everything we have going on by visiting alumni.uab.edu/events.

Remember, today should be celebrated as a culmination of hard work in earning a degree. But it's also the beginning of a new relationship that I invite you to enjoy as a new graduate...an alum of this tremendous school.

Congratulations on your accomplishment and welcome to the alumni family!

Go Blazers,

Sam Miller

CANDIDATES FOR DEGREES

HONORS DESIGNATIONS

The University of Alabama at Birmingham awards degrees with special designations to students who have achieved meritorious scholastic standing. Honor designations for undergraduates are based on grades reported prior to the completion of spring semester and may not reflect all earned honors. The designations are as follows:

Designation	Grade Point Average (A=4.00)
Summa Cum Laude	3.90 - 4.00
Magna Cum Laude	3.70 - 3.89
Cum Laude	3.50 - 3.69

An undergraduate student graduating with Summa, Magna, or Cum Laude honors is also accorded the privilege of wearing a gold honors cord.

The UAB Honors College brings together high-achieving intellectually curious students from all majors to form a close-knit community of emerging scholars. Honors students may follow a personalized curriculum or specialize in global and community leadership (GCL), science and technology (STH), or interdisciplinary arts and sciences (UHP). Honors students are recognized with “distinguished honors” for earning 18 hours of honors credit and “high distinguished honors” for 30 or more hours of honors credits. Students completing honors requirements wear a white cord and a UAB Honors College medallion.

School of Dentistry – The “With Honors” designation indicates at least a B average, completion of an approved plan of study and research, and completion of a relevant thesis.

Schools of Medicine and Optometry – Honors are given to those in the upper ten percent of their class based on overall grade point average. The designation Magna Cum Laude and Summa Cum Laude are not routinely awarded. Any graduate receiving such a designation is outstanding in ability and performance.

Veterans who have served in the United States Armed Forces wear a red, white and blue cord.
