

# Research Commons

Center for Clinical and Translational Science

# CCTS

**CCTS Research Commons** connects investigators to translational expertise and platforms that accelerate the pace of discovery towards improving health and healthcare access in our region.

## Clinical Research Resources

- Biostatistics, Epidemiology and Research Design
- Informatics
- Clinical Research Support Program (CRSP)
  - Clinical Trials Kiosk
  - Research nurses and coordinators
  - IND/IDE Assistance
  - ClinicalTrials.gov Guidance
- Clinical Research Unit
- Child Health Research Unit
- Specimen Processing & Biorepository
- Bionutrition Unit
- Regional Shared Resources

## Funding Opportunities

- Independent and Multiple PI Funding Opportunities
  - Statistical and Analytical Methods Development
  - Pilot Program
  - Clinical & Translational Science Research Program
  - CTSA Limited Submissions
- Institutional Training Grants
  - Predoctoral T32 Health Disparities Research
  - Postdoctoral T32 Dissemination and Implementation Research
  - Career Mentored K12 Health Disparities Research

## Grantsmanship and Training

- Grant Library: Compendium of grant samples and review responses.
- Panels: A community of scholarship powered by the CCTS Partner Network to brainstorm ideas, meet possible collaborators, and fine-tune study design
- Training Academy: Learning opportunities spanning the career arc
- Dissemination and Implementation Events and Consults

## Partnerships

- CCTS Partner Network
- Engagement of Communities
- CCTS Dissemination and Implementation Council
- SHARe: The Southeast Health Alliance for Research comprising the Partner Network
- CTSA Trial Innovation Network
- Practice Based Research Networks: Family, Pharmacy, Dental
