

# Training Academy

Center for Clinical and Translational Science

# CCTS

The **CCTS Training Academy** offers interdisciplinary, educational programs and enrichment activities for research teams across the career arc including graduate and postgraduate students, staff professionals, early career and established faculty and the community.

## Training Academy Featured Programs

### Translational Research Summer Series

8-week series of introductory concepts of translational research that is open to all academic and career levels.

**NRSA T32**  
One- and Two-year Predoctoral Clinical/Translational Research Program focused on pre-doctoral health professions.

**NRSA T32**  
2-year Postdoctoral Dissemination and Implementation Science Program

**K12**  
Two-year Deep South Mentored Career Development Program for early career faculty.

**DRIVEN**  
Interdisciplinary investigators collaborating to promote career development and advancement while building a diverse and inclusive research workforce.

**Case Studies In Mentoring**  
8-week series of presentations on topics related to the nuances of the mentor-mentee relationship through case-based discussions. All sessions facilitated by experienced mentors.

### \*New Program Spotlight\*

ACTION Learning uses local actors to illustrate real-life scenarios for a learning experience that covers all foci in the Training Academy
