

HONORS COLLEGE

MEDALLION CEREMONY

**2019 - 2020
HONORS GRADUATES**

OUR MANTRA

We recognize that our students already have a fire burning within them, a passion for something. Expanding thought, solving problems, exploring human experience. We see within our students the light of the future. Our job is to ignite that fire by exposing it to the thoughts, experiences, and possibilities that will help it to burn bright. Some colleges call this reaching your full potential or being the best you can be. But we call it something different, because we're something different. We're the Honors College in which students from anywhere can find the support and sense of belonging they need to become who they were truly meant to be.
