Department of Pharmacology and Toxicology

Tools to Dissect the Influence of Inhibitors on Protein-Protein Interactions in the MAPK and PI3K-AKT pathways

December 13, 2023
11:45 am–1:00 pm
BBRB 170

The UAB Structural Biology Forum (SBF) brings together specialists and non-specialists in structural biology to promote collaborative structure–function research in diverse disciplines including infectious diseases, cancer, immunology, cell biology, drug discovery and design, cell biology, and microbiome/metabolomics.

Refreshments will be served. For more information, please contact Dr. Jamil Saad (saad@uab.edu)
